

MINNESOTA PRIVATE COLLEGE FUND BENEFACTOR REPORT

Dear Friends:

Minnesota's private colleges award about one-third of the state's baccalaureate degrees. But unlike the other major sources of those degrees — the public systems — we do so with few government dollars. Offering a sizable public benefit with little public funding, our member institutions make an invaluable contribution to our state.

You are an essential part of this contribution. Philanthropy from businesses, foundations and individuals helps keep private higher education viable. The donations made to our institutions, the Minnesota Private College Fund and other scholarship entities all contribute to keeping our institutions strong and accessible to our students. And that has a statewide return, one that benefits all Minnesotans.

The Minnesota Private College Fund has been an important option for supporting private higher education for more than 55 years. In fiscal year 2008 alone, the gifts we received will provide more than 400 scholarships, together with meaningful general operating assistance for the institutions. Over time these gifts have totaled more than \$77 million.

The impact of your support is suggested by the stories of scholarship recipients in this report. We hope you derive as much pleasure as we do from these examples of students who are thriving — thanks to their motivation and your generosity. Working together we are achieving so much, for these students and all of Minnesota.

Cordially,
David B. Laird, Jr.
President

MISSION

To preserve and enhance quality private higher education dedicated to serve the education and economic needs of our region while strengthening our cultural and economic fabric.

ABOUT THE MINNESOTA PRIVATE COLLEGE FUND

In 1951, visionary business leaders recognized that Minnesota's private colleges were essential to the resilience of Minnesota. They collaborated with college leadership to create the Minnesota Private College Fund ("the Fund"). Since then, the Fund has helped the state's private colleges and universities retain their competitive edge by forging partnerships with businesses and foundations. Each year, the Minnesota Private College Fund conducts a campaign for support. The Fund operates as a pass-through foundation — every dollar raised goes directly to member schools and their students, augmenting the development efforts of our 17 member private colleges and universities. Since its inception 55 years ago, the Fund has raised more than \$75 million.

The Fund raises money for two purposes:

- **General Operating Support**, essential funds used to pay for books, lab equipment, computers, utilities, maintenance, etc.
- **Scholarship dollars** to annually provide more than 400 students from low- and middle-income families the means to obtain a quality college education.

Dollars are distributed formulaically, with 60 percent going to all colleges equally and 40 percent distributed based on enrollment figures. ■

50-Year Donors

In November 1951, a group of business leaders from throughout Minnesota came together to begin a drive for \$250,000 on behalf of Minnesota's Private Colleges. It was a first-of-its-kind endeavor in which private colleges in any state had united for a fundraising campaign. Today, 260 donors continue that tradition, including members of an elite group who have donated to the Fund for 50 years or more.
