Saint Mary's University of Minnesota
Schools of Graduate and Professional Programs

This table reflects graduation rate tracking across Saint Mary's University of Minnesota's Schools of Graduate and Professional Programs. Designed to capture long-term student success across varying credential levels, this reporting accounts for standardized completion windows tailored to each program type; evaluating undergraduate, certificate, and master's programs over a 5-year timeline, and doctoral programs over an extended 10-year period to accurately align with expected program duration.

Graduation Rates			
Five-year Graduation Rate[1]	**2019-2020**	**2020-2021**	**2021-2022**
Bachelor Completion Degree Programs	57%	66%	65%
Graduate Certificate Programs	61%	61%	59%
Master Degree Programs	67%	61%	57%
Ten-year Graduation Rate[2]	**2014-2015**	**2015-2016**	**2016-2017**
Doctoral Degree Programs	48%	47%	58%

[1]Five-year graduation rate is based on the number of students entering a new program of study in the respective academic year earning their degree in the program within five years.
[2]Ten-year graduation rate is based on the number of students entering a new doctoral program in the respective academic year earning their degree in the program within ten years.
